# Sand Creek Pools

Brentwood, Calif.

**T**o coordinate with the homeowner's pool installed 15 years ago, similar tile and decking colors were chosen for this spa.

Raised above the ground, this 8-foot-by-12-foot, freeform spa design includes two fountains of water on its first level.

Bullnose brick lining the spa's perimeter, and native-river rock used as trim on the steps, lend a nat-

ural look to the spa. Bright, colorful flowerbeds nestled on one side of each set of stairs were also incorporated into the project.

Tiles in varying shades of blue – matching the pool – create a glamorous look for this home's backyard.

Evening relaxation – and entertaining – in the spa is possible due to fiber-optic lighting. ▼
